I am writing to you regarding the course offerings for the Fall, 2012 semester. This website contains your registration materials and a list of course offerings which you will need for registration. Registration does not begin until June 4, so you do need to wait until then to submit your requests. Please remember, that even with an online format courses do have very limited availability. For online courses which require an in person component, students will need to come to main campus. These required attendance dates will be listed in the syllabus, however, the weekday you can expect is listed on the course offering sheet. We will be sure to update the exact dates for sessions as soon as they are available. Please try to make early decisions on your selections. If you have any questions, I invite you to contact me via email. If you wish to discuss your program or your future course options, I am also available for that.

In anticipation of your request for future offerings, I have updated the future course offerings sheet to reflect the changes based on anticipated offerings for the next few semesters. As I have said before, this is a tentative schedule for upcoming semesters, so there may be changes based on students and faculty. If there is something specific you would like to discuss, please send me an email or give me a call. If you have ideas about special topics you would like covered, please let me know and I will see if we can offer these types of courses.

Sincerely,

Peggy McCoy
