New Professional Case Study Competitions
(Three years or fewer of full-time experience)
Sponsored by the MACUHO Recognition, Education and Connections Committee (REC)

Are you looking for a challenge? Like a little competition? Then consider participating in the annual case study competition at the MACUHO annual conference. We invite new professionals to reach New Heights and New Perspectives.

The Case Study Competition gives you an opportunity to use your experiences to propose resolutions for several case studies. At the conference we will meet and go over the Case Study process and provide you with the case studies. The Case Study presentations will take place during a conference session and will be rated by a panel of judges. The winners of the Case Study Competition will receive a waiver of registration fees for the 2005 MACUHO Conference.

To register for the Case Study Competition complete the appropriate information on the conference registration form. We will have up to six two-person teams participating in the competition. You can sign up with a partner or we can assign you a partner. Registration will be on a first-come, first-serve basis. Once we have six teams, we will create a waiting list based on the order we have received requests.

If you would like further information or have any questions, please contact Kristen Corcoran at kmrad1@mail.francis.edu.
